PETROL ALLSAW APPEARING IN THE NEW INVENTORS GRAND FINAL!

Perth – 28th November 2007 Arbortech's Petrol Allsaw is one five New Inventions, selected out of one hundred and fourteen inventions televised over 2007, to appear in the 2007 Grand Final of the The New Inventors ABC television program. ABC New Inventors is a popular nationwide platform to highlight the best Australian inventions every year with weekly episodes and one grand final where the winner is chosen based on originality, design qualities, manufacturing potential, pricing, marketability and safety.

The Petrol Allsaw uses the patented Allsaw Cutting Technology and has the potential to penetrate several established markets presently occupied by chainsaws, quick-cuts and stump grinders. The Petrol Allsaw will be the ideal tool for many different applications including landscaping, forestry, building and construction, rescue and emergency services. The Petrol Allsaw, which is now in the testing and tooling up stage and is expected to be released in the Australian market in the second half of 2008.

ABOUT ARBORTECH Arbortech is an Australian company engaged in the research, development and manufacturing of innovative technologies. **Arbortech** was incorporated in 1988 with the release of the Woodcarver™ Blade, a revolutionary product that allows the user to powerfully shape wood using free-hand techniques. Primarily known for its cutting technologies as featured in the Award-winning AS160, **Arbortech** also gained international recognition for its development of the Airboard™, a unique personal hovercraft that featured in the Sydney 2000 Olympics Opening Ceremony.

Since its first product release, **Arbortech** has positioned itself in international markets as a progressive company delivering unique woodworking and masonry cutting power tools. Arbortech has gained an international reputation for an innovative approach, engineering excellence and cutting-edge technologies in already well-established industries.
